

SOLO taxonomy: Data - Controlled and secured (9-10)

We are learning about networks and cyber security				
SOLO LEVEL	One	Many	Relate	Extend
SOLO VERB	<i>Identify and define</i>	<i>Combine and perform serial skills</i>	<i>Apply</i> <i>Integrate</i>	<i>Create and</i> <i>evaluate</i>
Success Criteria	I can IDENTIFY ways authorisation is used to protect our data and information by restricting use and access to digital systems.	I can describe ways authorisation is used to protect our data and information by restricting use and access to digital systems. I can DESCRIBE different types of malicious code.	I can EXPLAIN how encryption is used in cyber security of digital systems I can EXPLAIN how malicious code can affect digital systems.	I can DESIGN a secure system that considers approaches to cyber security.
Digital Technologies Way of Thinking	Systems thinking	Systems thinking	Systems thinking	Systems thinking

As learning progresses, it becomes more complex. SOLO stands for the Structure of the Observed Learning Outcome. It is a means of classifying learning outcomes in terms of their complexity. It can help differentiate a task to enable students to operate at their level and provide learning tasks that are progressively more challenging.
