Helen is a dynamic and engaging leader, innovator, educator and member of Girl Geek Academy. Specialising in teacher training, digital technologies in education, eSafety and curriculum development and change management.

GIRL
GEEK
ACADEMY

a whole school approach problem-solving model

- 1. What are the benefits of engaging girls in technology through making, creating and inventing?**
- 2. What strategies have you used to engage girls in technology at your school?**

3. What are some common elements of successful programs implemented in schools that have made a difference to increasing girls' engagement?

4. What are some blockers and challenges faced at your school to engage girls in technology?
