

Systems Thinking Habit

Name:

<p>Our habit title is ...</p>	<p>This habit is about: (Read your 'habit' text out. Are there any key words or concepts that you should define for everyone?)</p>
<p>The illustration shows ...</p>	<p>The illustration conveys the message: (How does your habit help in this situation?)</p>
<p>The key concepts are:</p>	<p>An example where this habit may be useful is: (See the list below for some suggestions.)</p>

Some systems you may know a little about:

- a home garden
- the human body or one of its systems (for example, digestive, endocrine)
- the people, facilities and resources at your school
- the computer and network hardware at your school
- a smartphone (hardware and software)
- a local business
- a place of worship, sports club or other community organisation
- a video game (especially one with management of resources, or an online economy and community)
- the people and resources needed to keep a family home going
- a local environment such as a creek
- a national natural resource like the Murray-Darling Basin and the industries it supports.
