

Create a Program to Build a Unifix Block Model

1. Use a selection of unifix blocks to create your model.
Use no more than 10-15 blocks.

2. Create a colour or other kind of key below to represent your model

pink		green	
red		cyan	
orange		blue	
yellow			
light green		black	
dark red		red	

3. Draw your model by shading in the appropriate boxes below:

4. Use your colour key and arrows to program commands for someone to follow to build your model. Include START and END.
