

SOLO taxonomy: Data is all around us (F-2)

We are ...				
SOLO LEVEL	One	Many	Relate	Extend
SOLO VERB	<i>Identify & Define</i>	<i>Combine & Perform Serial Skills</i>	<i>Apply</i> <i>Integrate</i>	<i>Create &</i> <i>Evaluate</i>
Success Criteria	I can identify different types of data. I can record data about myself.	I can sort data into groups and describe each group type. I can organise the data so I can make sense of the data. I can describe patterns in the data. I can represent data in different ways using symbols and images.	I can collect data and record it in a table and describe any patterns.	I can create a chart to visually present data and with help use relevant software to create a simple chart.
Digital Technologies Way of Thinking		Computational thinking	Computational thinking	Design thinking

As learning progresses, it becomes more complex. SOLO stands for the Structure of the Observed Learning Outcome. It is a means of classifying learning outcomes in terms of their complexity. It can help differentiate a task to enable students to operate at their level and provide learning tasks that are progressively more challenging.
